

CPN-30

30-bay Docking Cabinet for Opticon models OPN-3002n, OPN-3002i, OPN-4000n and OPN-4000i

The CPN-30 is a complete solution to centrally charge and organize up to thirty OPN-3002n's, OPN-3002i's, OPN-4000n's and OPN-4000i's. Needing one power outlet to charge all 30 scanners at once. With this cabinet checking if all scanners are present is done fast and easy. The cabinet can be used on a desk or wall-mounted with the wall mount kit (accessory).

Although a USB connection is physically available we currently only support charging. New functionality like USB communication will become available at the moment Opticon releases new firmware that supports this. The good news is that the CPN-30 is prepared and ready for this.

CPN-30 shown with OPN3002i, OPN3002n and OPN4000n*
 *barcode scanners NOT included

SPECIFICATIONS

- **PHYSICAL**

dimensions (W x D x H): 452 x 295 x 295 mm / 17.8 x 11.61 x 11.61 in
