

SPC-2

Silicone Protection Case for Opticon OPN200x usage with DOKKi 'SPC' model docks

This silicone case is designed to operate in conjunction with our DOKKi 'SPC' docks, like the CMT-6SPC and CMT-30SPC. The case encloses the scanner, offering extra protection whilst still being able to dock the scanner.

Available in colors grey (SPC-2-GRY) and blue (SPC-2-BLU).

The anti-skid surface structure provides a good grip. Even though there are no openings for the beeper it still can be heard. The large scan button is covered and feels natural to operate as the design follows the scanners' contours. Also the bright LED is still visible as well. Below the large scan button a little raised bubble enables easy access to the small 'erase' button.

SPC-2-GRY

SPC-2-BLU
