

Description

 **NOTIFICATION DISCONTINUED** | Alternatives can be found under the 'Related products' tab, or contact us for assistance.

The information below is for reference purposes only.

This unique thirty-bay docking station (charge only) charges up to 30 Opticon OPN-2001's, OPN-2005's and OPN-2006 simultaneously. (*1)

This model features larger power supplies, ensuring fast charging of the scanners. **The increased docking-bay height for the scanners provides easier insertion, better stability and a more secure connection.** Offering a complete overview of what's there at a glance makes it easier to manage all scanners, and, while being inserted, the OPN's are securely stored as well.

A single power cable runs from the dock, thus needing only one power outlet to charge all 30 scanners at once. Our CMT single-bay and six-bay docks offer data transfer capabilities for applications where USB communication is required.

- charge up to thirty of any mix of OPN-2001's, OPN-2005's and OPN-2006's at once;
- only one power outlet necessary to charge all scanners;
- desktop usage;
- charging only operation;
- elegant design, saves a lot of space;
- better overview, more efficient management.

(*1) Barcode scanner(s) NOT included.
